Product End of Life Notice (2024-V-104E)

Technical: Using outdated technology concepts means that the products are no longer compatible with current market standards or customer expectations.

Infrastructure: Maintaining the infrastructure in the production environment to manufacture, assemble and test products is becoming increasingly challenging.

Supply chain: Sourcing of third-party components for our product(s) is severely hampered due to obsolescence of those components or sometimes impossible due to the absence of suitable alternative products.
